OUR MISSION

At Shiba Wing, we bridge the gap between real-world assets (RWA) and cryptocurrency by integrating crypto into dining experiences. Powered by **\$WING**, our loyalty and rewards program taps into the booming \$50B+ meme economy.

Wing is pioneering a unique fusion of the meme token phenomenon with tangible, real-world utility. By allocating 5% of all restaurant net profit per location to token repurchases of the \$WING token, Shiba Wings creates a sustainable circular economy. The \$WING token serves as the cornerstone of Shiba Wings' ecosystem, powering its franchise dynamic loyalty and rewards program. This strategy not only bridges the gap between cryptocurrency and dining but also taps into the booming \$50B+ meme economy. As the ecosystem grows, these token repurchases can exponentially increase the token's value, benefiting both the business and \$WING holders alike. Shiba Wing offers an unparalleled experience for crypto enthusiasts and food lovers alike.
